The founding principle of the San Francisco Art Dealers Association (SFADA) is: art enriches people's lives. Through its members and programs, SFADA contributes to the advancement of culture in the San Francisco Bay area by investing in the professional development of its members and forging relationships with both public and private organizations to promote the arts.

SFADA was established in 1972. Our exhibitions and collections range from historic works to the cutting edge in all media: sculpture, painting, works on paper, textiles, video film and installations. We show work by emerging and mid-career artists as well as early, modern and contemporary masters. Membership is by invitation only. For more information please contact: info@sfada.com

the san francisco art dealers association

A downtown tradition since 1993, the first Thursday of every month sees many of our member galleries are open late for a casual open house. When you're making a special trip to visit a specific gallery, we recommend that you call first. Most locations 5:30-7:30pm.
